

# WHAT CAN THE CREW DO FOR YOU?

ageas  
the crew behind you.

Your customers need all kinds of commercial and personal lines products. Their needs evolve as business grows and their lives change. And that means you need an approachable partner – an insurer who's flexible, and wants to work with you to build sustainable business.

## FLEET

Large or small, we believe every fleet owner is looking for the same thing: round-the-clock confidence that their policy will support their drivers, just as much as it covers their vehicles.

With a 24-hour dedicated claims helpline, and additional cover for a small amount of plant on each policy - there are no limits on the number of vehicles that can be added to any Fleet policy. Or for 3-25 vehicles, take a look at our great Small Fleet offering.

## NICHE

From cherished classic bikes and cars, to performance vehicles and caravans, to thatched cottages and non-standard construction homes – we're ready to consider a wide variety of your niche motor and home business. We'll work with you to create a solution that's right for both you and your customers. To find out more about what we can do, contact David Taylor on 0773 9615 390 or email him at [david.taylor@ageas.co.uk](mailto:david.taylor@ageas.co.uk).

## COMMERCIAL

Whether you want to trade digitally or trade regionally, we have a number of commercial policies; each designed to meet your needs and your customer's. You may be surprised by the types of business we recently put on cover, and by the way we work around what suits you.

We offer commercial combined, flexible cover for single or multi location businesses.

And if you're keen to trade with us digitally, then we have a number of digital products for your SMEs, available via iMarket, across the major software houses and via the Ageas Extranet.

## SCHEMES

Commercial or personal - every one of our schemes is unique, but they all have several things in common. With Ageas, schemes are all about specialist underwriting expertise; claims reliability, and benefits that have been put together thoughtfully, to reflect those policyholders' potential risks and needs.

## PERSONAL

Whether it's standard Home, Motor, or Personal Accident: our personal lines products are built around people's real-life experiences, and supported by experienced teams that help to make a huge difference – where and when it matters.
